

# SUPER HEAVY DUTY DEGREASER

High Performance Electrolytic Degreaser/Cleaner

General Care

ULTRACHEM LABS

## PRODUCT DESCRIPTION

Ultra's Super Heavy Duty (HD) Degreaser is a powerful, environmentally conscious, industrial strength degreaser and cleaner versatile enough to remove wide ranges of the toughest soils. Super HD Degreaser is ideal for removing grease in kitchens around stoves, ovens and vent hoods. Its HD degreasing power is extremely effective against industrial grease and oil, shop tools, machinery, animal fats, permanent marker and ink. General cleaning of floors and other hard surfaces are also made easy with Super HD Degreaser's Electrolytic Cleaning Technology.

Overall, Super HD Degreaser is a high performance degreaser and cleaner for most water or oil based soils that can be applied through a multitude of cleaning applications.

## POWER OF TECHNOLOGY: ELECTROLYTIC CLEANING TECHNOLOGY

Utilizing Electrolytic Cleaning Technology allows Super Heavy Duty Degreaser to remove soil by neutralizing the ionic charge of the soil and surface. Therefore the targeted soil no longer has the ability to stick to the substrate resulting in easy soil removal which also keeps surfaces cleaner for extended periods of time.

## SELECTIVE IMPLOSION TECHNOLOGY

Designed with Selective Implosion Technology, Super Heavy Duty Degreaser implodes the toughest industrial oils and greases on a molecular level. The molecular bonds are unlocked resulting in easy and safer soil removal.

## FEATURES EFFICIENT

- Super high performance
- Easily removes soil
- Safe on surfaces
- Effective on both oil and water based soils

## ENVIRONMENTALLY CONSCIOUS

- No added Phosphate and Bleach
- Cold water use
- Meets third party environmental criteria regarding reduced toxicity, biodegradability, packaging and other characteristics focused on creating a more sustainable environment.

## ECONOMIC

- Dilution as low as 2 oz/gallon for general cleaning

Electrolytic Cleaning

Selective Implosion

## PROPERTIES

Physical Form: Red  
Detergency: Electrolytic Type  
Fragrance: Fragrance free  
pH: 9.5 +- 0.5  
Foam level: Low foaming  
Rinsability: Complete  
Wetting: Complete  
Emulsification: Excellent  
Shelf life: 2-3 years minimum in unopened container  
Freez/Thaw stability: Excellent  
Solubility in Water: Complete  
Flash Point: 85°C

# SUPER HEAVY DUTY DEGREASER

## DIRECTIONS

### Manual Cleaning

1. Dilute Super HD Degreaser with cold water at 2-8 oz/gallon of water in a clean bucket depending on soil level.

**Light Cleaning:** 2 oz per gallon of cold water

**Medium Cleaning:** 4 oz per gallon of cold water

**Heavy Cleaning:** 6-8 oz per gallon of cold water

2. Clean in sections using a soft bristle brush, cloth or mop. If a haze/film develops, cleaner is removing residual from previously used cleaners, rinse and re-clean and haze/film will not occur.

3. For best results, allow the cleaning solution to remain on the surface for 2-4 minutes, but not to dry. Simply scrub/wipe up the solution with a brush/damp cleaning applicator and proceed.

4. If procedures are done outdoors, rinse with a garden hose at the highest pressure possible. For best results, all reused cleaning rags and mops should be cleaned with any Ultra Chem Labs Cleaner or Laundry product.

### Pressure Wash Cleaning

1. Put pressure washer siphon tube into solution.

2. Use low-pressure spray nozzle to apply solution to surface.

3. Remove the siphon tube from the container.

4. Rinse with a high-pressure nozzle.

5. For outdoor application, saturate plants, shrubs and grass with water after cleaning.

6. Before storage, rinse pressure washer parts thoroughly.

## General Care

### ULTRACHEMLABS

\* Ultra Chem Labs awards its internal Environmentally Sustainable Seal to products that meet third party environmental criteria regarding reduced toxicity, biodegradability, packaging and other characteristics focused on creating a more sustainable environment.

Available in 1 gal bottle, 5 gal pail, 55 gal drum
