

# Safety Data Sheet

## High Gloss Flex Platinum

### Section 1

### Product Description

**Product Name:** High Gloss Flex Platinum

**Recommended Use:** Super high gloss/durable/burnishable floor finish

**Synonyms:** None

**Supplier Details:**

Ultra Chem Labs Corp

4581 Brickell Privado St

Ontario, CA 91761 USA

1-909-605-1640

**Emergency Telephone:** 1-800-535-5053

### Section 2

### Hazard Identification

OSHA/HCS status :

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture: Not Classified

**Signal word** : No signal word.

**Hazard statements** : No known significant effects or critical hazards.

**Precautionary statements:**

**Prevention** : Not applicable

**Response** : Not applicable

**Storage** : Not applicable

**Disposal** : Not applicable

GHS label elements

**General** : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

### Section 3

### Composition/Information on Ingredients

Chemical Name	CAS-No	Weight %	Trade Secret
Tributoxyethyl Phosphate Plasticiser	78-51-3	1-5	
Propylene Glycol	57-55-6	1-5	

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

# Safety Data Sheet

## Section 4

## First Aid Measures

### Description of necessary first aid measures

#### **Eye Contact:**

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

#### **Inhalation:**

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

#### **Skin Contact:**

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

#### **Ingestion:**

Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most Important Symptoms/Effects, Acute And Delayed

#### Potential Acute Health Effects

**Inhalation** : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Ingestion** : No known significant effects or critical hazards.

**Skin contact** : No known significant effects or critical hazards.

**Eye contact** : No known significant effects or critical hazards.

#### Over-Exposure Signs/Symptoms

Skin contact: No specific data.

Ingestion: No specific data.

Inhalation: No specific data.

Eye contact: No specific data.

### Indication Of Immediate Medical Attention And Special Treatment Needed, If Necessary

**Notes to physician** : In case of inhalation of decomposition products in a fire, symptoms may be delayed.

The exposed person may need to be kept under medical surveillance for 48 hours.

**Specific treatments** : No specific treatment.

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

## Section 5

## Fire-fighting measures

### Extinguishing Media

**Suitable extinguishing media:** Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media:** None known

**Specific hazards arising from the chemical:** In a fire or if heated, a pressure increase will occur and the container may burst.

#### **Hazardous thermal decomposition products:**

Decomposition products may include the following materials:

carbon dioxide

carbon monoxide

metal oxide/oxides

**Special protective actions for fire-fighters:** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

# Safety Data Sheet

## Section 6 Accidental release measures

### **Personal precautions, protective equipment and emergency procedures**

#### **For non-emergency personnel:**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

#### **For emergency responders:**

If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

#### **Environmental precautions:**

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### **Methods and materials for containment and cleaning up:**

#### **Small spill**

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

#### **Large spill**

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7 Handling and storage

### **Precautions for safe handling**

Protective measures : Put on appropriate personal protective equipment (see Section 8).

#### **Advice on general occupational hygiene:**

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Store in accordance with local regulations.

#### **Conditions for safe storage, including any incompatibilities:**

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled

## Section 8 Exposure controls/personal protection

### **Control parameters**

#### **Occupational exposure limits**

None.

#### **Appropriate engineering controls:**

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### **Environmental exposure controls:**

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

# Safety Data Sheet

## Section 8 Exposure controls/personal protection

### **Individual protection measures**

#### **Hygiene measures:**

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

#### **Eye/face protection:**

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.

### **Skin protection**

#### **Hand protection:**

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves.

#### **Body protection:**

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### **Other skin protection:**

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### **Respiratory protection:**

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

# Safety Data Sheet

## Section 9

## Physical and chemical properties

### Appearance

**Physical state:** Liquid

**Color:** Milky white

**Odor:** Mild odor

**Odor threshold:** Not available

**pH:** 8.5±0.5

**Melting Point:** 0°C (32°F)

**Boiling point:** >100°C

**Flash point:** 93°C

**Evaporation rate:** 0.22

**Flammability (solid, gas):** Not available

**Lower and upper explosive:** Not available

**(flammable) limits**

**Vapor pressure:** 17 mmHg

**Vapor density:** <1

**Specific gravity:** 1.025 + 0.01 g/cm<sup>3</sup>

**Solubility:** Not available

**Partition coefficient: n-octanol/water:** Not available

**Auto-ignition temperature:** Not available

**Viscosity:** Not available

**VOC content:** 0.5%

VOCs are calculated following the requirements under 40 CFR, Part 59, Subpart C for Consumer Products and Subpart D for Architectural Coatings.

## Section 10

## Stability and reactivity

**Reactivity:** No specific test data related to reactivity available for this product or its ingredients.

**Chemical stability:** The product is stable.

**Possibility of hazardous reactions:**

Under normal conditions of storage and use, hazardous reactions will not occur.

**Conditions to avoid:** No specific data.

**Incompatible materials:** Strong oxidizing agents, strong acids such as bleach

**Hazardous decomposition products:** Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11

## Toxicological information

### Information on toxicological effects

#### **Acute toxicity**

Product/ingredient name	Result	Species	Dose
Propylene Glycol	LD50 Oral	Rat	22,000 mg/kg
	LD50 Dermal	Rabbit	20,800 mg/kg
Tributoxyethyl Phosphate	LD50 Oral	Rat	5000 mg/kg
Plasticiser	LD50 Dermal	Rabbit	5000 mg/

# Safety Data Sheet

## Section 11

## Toxicological information

### **Irritation/Corrosion**

No information available

### **Sensitization**

No information available

### **Mutagenicity**

No information available

### **Sensitization**

No information available

### **Mutagenicity**

No information available

### **Teratogenicity**

No information available

### **Specific target organ toxicity (single exposure)**

No information available

### **Specific target organ toxicity (repeated exposure)**

No information available

### **Aspiration hazard**

No information available

**Information on the likely routes of exposure:** No information available

### **Potential acute health effects**

**Eye contact :** No known significant effects or critical hazards.

**Inhalation :** No known significant effects or critical hazards.

**Skin contact :** No known significant effects or critical hazards.

**Ingestion :** No known significant effects or critical hazards.

### **Symptoms related to the physical, chemical and toxicological characteristics**

Skin contact: Adverse symptoms may include the following: irritation, redness

Ingestion: No specific data.

Inhalation: No specific data.

Eye contact : Adverse symptoms may include the following: pain or irritation, watering, redness

### **Delayed and immediate effects and also chronic effects from short and long term exposure**

**Short term exposure:**

**Potential immediate effects:** Not available

**Potential delayed effects :** Not available

**Long term exposure**

**Potential immediate effects:** Not available

**Potential delayed effects :** Not available

# Safety Data Sheet

## Section 11

## Toxicological information

### Potential chronic health effects

Not available

**General** : No known significant effects or critical hazards.

**Carcinogenicity** : No known significant effects or critical hazards.

**Mutagenicity** : No known significant effects or critical hazards.

**Teratogenicity** : No known significant effects or critical hazards.

**Developmental effects** : No known significant effects or critical hazards.

**Fertility effects** : No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

Route	ATE value
Oral	12735 mg/kg

## Section 12

## Ecological information

### Toxicity

Product/ingredient name	Result	Species	Exposure
Tributoxyethyl Phosphate	Acute EC50 75ppm	Daphnia magna	48 hours
Plasticiser Propylene Glycol	Acute LC50 51,400 mg/l	Fish-Pimephales promelas	96 hours

### Persistence and degradability

Not available.

### Bioaccumulative potential

Not available.

### Mobility in soil

**Soil/water partition coefficient (KOC)** : Not available

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13

## Disposal considerations

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# Safety Data Sheet

## Section 14

## Transport information

DOT Classification: Not regulated

**Additional Information:** Keep from freezing

**Special precautions for user:**

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

## Section 15

## Regulatory information

**U.S. Federal regulations :**

United States inventory (TSCA 8b): All components are listed or exempted.

**Clean Air Act Section 112 :** Not listed

**(b) Hazardous Air**

**Pollutants (HAPs)**

**SARA 311/312**

**Classification :** Immediate (acute) health hazard

**Composition/information on ingredients:**

Name	%	Fire Hazard	Sudden Release of pressure	Reactive	Immediate (acute) health hazard	Delayed (chronic) health hazard
Propylene glycol	1-5	No	No	No	Yes	No
Tributoxyethyl phosphate	1-5	No	No	No	Yes	No

**State regulations:**

**California Proposition 65**

**International regulations**

**Canada inventory :** All components are listed or exempted.

**CERCLA**

This material, as supplied, contains no substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302).

**Clean Water Act**

This product contains no substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

## Other information

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868. The customer is responsible for determining the PPE code for this material.
