

# ULTRA SOFT

High Performance Conditioning and Drying Aid

Ultra Chem Labs awards its internal Environmentally Sustainable Seal to products that meet third party environmental criteria regarding reduced toxicity, biodegradability, packaging and other characteristics focused on creating a more sustainable environment.

**Efficient:**

Drastically Reduces Dry Times  
Returns pH to 5.5  
Restores Linen Integrity  
Provides Soft and Luxurious Feel

**Environmentally Preferable:**

Food Grade Acids  
Biodegradable

**Economic:**

Low dilutions for three levels of washing capacity

# ultra SOFT

## DESCRIPTION

Ultra SOFT is a high performance conditioning and drying aid that will restore the physical integrity of the fabric. Instead of adjusting pH levels, Ultra SOFT would return positive and negative charges back into the fabric which maintains linens after the wash to a 'like new' feel. By returning hydrogen back into surfaces, Ultra SOFT helps fabrics to release water retention which drastically reduces dry times.

- Reduces Dry Times
- Reduces Wash Cycle Time
- Does not rely on pH
- Environmentally approved
- Restores optimal conditions of fabrics
- Minimal linen degradation

## Properties

**Color:** Light Green

**Detergency:**

No Detergency

**Foaming:** Non-foaming

**Fragrance:** Natural Sweet

**pH:** 3.0 +- .08

**Rinsability:** Complete

**Wetting:** Excellent

**Emulsification:** Excellent

**Shelf Life:** 2-3 years depending  
on storage conditions

This product meets Truly Green  
environmental standards and  
certifications for industrial and  
institutional products. This is  
based on its reduced human and  
aquatic toxicity and reduced smog  
production potential.

**KEEP OUT OF REACH  
OF CHILDREN DANGER**
