

ULTRAsoft

Fabric Drying Aid and Conditioner/Residue Remover

PRODUCT DESCRIPTION

Electrolytic Conditioner and Drying Aid. Ultra Soft is a conditioner and drying aid which does not adjust pH, but instead puts the positive and negative charges back into linens to drastically reduce linen degradation. It neutralizes the linen to a natural and neutral skin pH of 6+- 0.5; aids in drying process; brings linen integrity to a 'like new' condition; stays wet for shorter periods of time (hydrogen molecules returned); leads to soft, new and luxurious feeling; and leaves the absorbency levels of linen unchanged.

POWER OF TECHNOLOGY:
